

MOHAMMAD ADIL SHAIK

+1 (806) 544 6842 | adilshaik6571@gmail.com | Charlotte, NC | [LinkedIn](#)

EDUCATION

University of North Carolina at Charlotte (CGPA: 4.0)

Charlotte, NC

Master of Science in Computer Science, Concentration in Data Science

August 2024 – May 2026

- Relevant Coursework: Algorithms and Data Structures, Intelligent Systems, Knowledge Discovery in Databases, Computer Communications and Networks, Big Data Analytics for Competitive Advantage, Illustrative Visualization, Database Systems, Principles of Information Security and Privacy, Software System Design and Implementation, Survey of Programming Languages

G Pulla Reddy Engineering College (CGPA: 8.05)

Kurnool, India

Bachelor of Science in Computer Science & Engineering

August 2019 – May 2024

- Core Topics: Machine Learning, Data Structures and Algorithms, Database Management Systems, Statistical Methods, Data Mining and Warehousing, Big Data Analytics
- Additional Expertise: Artificial Intelligence, Probability and Statistics, Data Visualization, Software Engineering, Computer Networks

SKILLS

Languages: Python, HTML5, CSS3, JavaScript ES6, PHP, SQL

Frameworks: React.js, Node.js, Express.js, Bootstrap, Flexbox, Grid, Apex Framework, Visualforce, Flask, Spring Framework

APIs: REST APIs, SOAP APIs, Salesforce CLI, Dropbox API, AWS SDK, Azure API Management

Software: Git, GitHub, Docker, Unix Command Line, Data Loader, Agile Methodology, CI/CD, Debugging and Troubleshooting, Responsive Design, Version Control, Security and Permissions, Trailhead, AWS Cloud Tools

Databases: MongoDB, SQL, DynamoDB

Technologies & Concepts: Data modeling, pipeline development, Core concepts of AI and ML, Foundational AWS and Azure skills

WORK EXPERIENCE

Creative Central

India

Software Engineer Intern

December 2023 – May 2024

- Led product development for a mobile application, conducting user research and employing rapid prototyping techniques to ensure a positive UX.
- Developed backend services using Spring and Python/Flask, maintaining data integrity within a MySQL database, and shipping software using Docker.
- Coded front-end components with React and JavaScript, improving UI responsiveness; integrated Dropbox for file sharing, optimizing data processing speed by 25%.
- Engineered a robust data pipeline, improving product engineering efficiency by 40%; leveraged Git for version control and agile methodologies for efficient product development; implemented coding best practices.

Salesforce

Salesforce Developer Intern

May 2023 – July 2023

- Completed Salesforce Trailhead modules including Salesforce Fundamentals, Organizational Setup, and Relationship & Process Automation, gaining comprehensive knowledge in Salesforce development
- Configured Apex, Testing & Debugging environments, and set up VS Code & CLI tools, enhancing code quality and development efficiency
- Created Lightning Web Components (LWC) and integrated APIs, creating interactive user interfaces and improving application performance

Projects

Early detection and diagnosis of Heart

- Designed and developed a heart disease detection system utilizing deep learning with TensorFlow and Keras, featuring CNNs for electrocardiogram analysis. Documented project workflows with detailed diagrams and managed the setup of key libraries and tools, resulting in enhanced diagnostic accuracy and effective risk assessment.

QR-Based Attendance System (Qurify)

- Developed a QR-based attendance system using Python, Flask, and OpenCV, enabling efficient and contactless attendance tracking. Implemented QR code generation and scanning functionalities, ensuring accurate record-keeping. Documented the setup process and key workflows on GitHub, streamlining installation and usage for future users and collaborators.

LEADERSHIP & INVOLVEMENT

Event Organizer, TEDx GPREC event

Kurnool, India

Co-Director of Design Team

June 2022 – June 2024

- Led event branding and design, achieving a cohesive experience for 700+ attendees and a 20% cost reduction, while collaborating on social media content that boosted registration by 40% and managing event logistics.

CERTIFICATIONS

- Certified by Internshala in web development, mastering HTML/CSS, MySQL, PHP, JavaScript, and React, and built a website
- Certified by AWS Academy in Data Engineering, mastering data analysis, data modeling, and pipeline development using AWS tools
- Certified by AWS Academy in Machine Learning Foundations, mastering core concepts of AI and machine learning using AWS services
- Certified by Microsoft in Azure Fundamentals, gaining foundational knowledge of cloud concepts and Azure services
- Certified by AWS Academy in Cloud Foundations, mastering fundamental cloud computing concepts and AWS services
